

Fish TV Pro Fishing Seminars

FLY FISHING TROUTFITTER STYLE

Presented by: KEN COLLINS

Ken has been in and around fly fishing since his Grade 7 gym teacher introduced him to this interesting and effective way to fish. His passion took him through casting competitions, demonstrations, teaching and using other opportunities to share his passion for this sport. Ken was Ontario's first FFF Board certified fly casting instructor and if there was a way to help people get introduced to fly fishing - he was probably involved! Ken has also explored fly fishing, travelling with his tackle looking for just about anything that has fins and gills. To help get quality equipment and information to the fly fishing community he ran a fly fishing only store for 20 years and continues to run one of Ontario's most renowned Fly-fishing education programs and operates a world class guiding operation on Ontario waters.

With this vast amount of experience building fly fishing successes – Ken would like to help you discover the joy of fly fishing. With this seminar let's understand why you need to consider fly fishing. It's a fun and exciting way to experience waters around the world that is surprisingly easy and available to enjoy.
